SAFE SURGICAL APPROACH
NON INVASIVE AND MINIMALLY INVASIVE
SURGICAL TREATMENTS
FIFTH EUROPEAN SYMPOSIUM**

MILANO, 28th NOVEMBER - 1st DECEMBER 2012

Conference Venue

MARRIOTT HOTEL via G. Washington, 66 - 20146 Milano - Italy

welcome

Dear friends and colleagues,

*I am very pleased to send you the dates and some information regarding the **2012 Aesthetic Surgery of the Breast Symposium**. We will be very pleased to welcome you in **Milan**, and we are working hard to introduce new elements to make the conference interesting every time. The conference will be held in a new venue, please refer to the address below, and this year we will also be including live surgery on December 1st.*

We will be introducing a QR code for all those of you that have an I-Pad or smart phone to allow you all to have the latest version of the programme for your consultation. For all participants however, we will be producing a memory stick with all the abstracts and articles pre-loaded to pick up during registration.

For those with less experience, this year we will be holding a hands-on workshop, on the last day of the symposium, that will be limited to 10 participants. This workshop will be held using a Mastotrainer. Please refer to the brief film that you can watch at the following address: www.youtube.com/watch?v=YVaGA7LXxEE

This year will bring some exciting new elements:

- _new guest speakers
- _pre-conference courses, held by international experts
- _special session dedicated to non-invasive treatment of the face and body
- _video teaching sessions
- _instructional courses
- _lots of interactive discussion sessions
- _live surgery on December 1st
- _limited number hands-on workshop with Mastotrainer
- _new web-site in production dedicated to the conference that will be on-line soon
- _programme, abstracts and articles downloadable with i-pad or smartphone by QR code

Please note the dates in your diary, and I really hope to see you all in Milan at the end of November.

Best regards.

Maurizio Nava

Life-like models created with special material that represent the human anatomy and structure and are particular adapted for reconstructive breast surgery. The life-like models allow the participant to technically reproduce a demolitive and reconstructive surgery as well as an aesthetic procedure. The course is very helpful for young surgeons or for those who want to increase their surgical skills.

abstracts

Participants are invited to send abstracts on:

Innovations, complications and new techniques in breast aesthetic surgery

Breast prevention and detection after aesthetic surgery

Non invasive and minimally invasive surgical treatments

Participants with new data relevant to the subjects of the conference may submit one abstract to be considered for poster or oral presentation.

All the abstracts will be reviewed by the Scientific Committee and approved as poster or oral presentation.

Abstracts must be written in English and the text should not exceed 2000 characters (title included).

The title should appear in capital letters.

For each author, type surname first followed by given name and initials (presenting author in capital letters). List affiliations after the authors' list. The full address with telephone, fax number, and e-mail of the corresponding author must be provided.

Only abstracts submitted by registered participants will be

accepted.

The accepted abstracts will be published in the final programme.

Send the abstract by e-mail as an attached document to:

congress@breastsurgeryinnovations.com indicating as the subject Aesthetic Surgery of the Breast.

The deadline for the abstracts is 15th September 2012 and acceptance of the abstracts will be communicated before the 15th October 2012.

Once accepted, you will receive the instructions for the presentations. The slides for the selected oral presentations must be sent prior to the conference dates.
