

Pre-Conference Course + Live Surgery (12th - 13th Dec, 2018)

WEDNESDAY 12th	ROOM	ORANGE ROOM A	ORANGE ROOM B	ORANGE ROOM C	GREEN ROOM A	GREEN ROOM B	GREEN ROOM C	Pre -Conference
	12.00 - 14.00	REGISTRATIONS						
	14.00 - 16.30	<p style="text-align: center;">MASTERCLASS M.B. NAVA Breast augmentation</p> <p>From the first consultation to the final results. Patients and Implant selection. Measurements. Surgical procedures (videos). Minimize contamination. Post op. Follow-up (Live Model)</p>	<p style="text-align: center;">MASTERCLASS A. RANCATI Breast reduction</p> <p>From the first consultation to the final results. Surgical procedures, patients selection. Pre Op. Drawings. Surgical details (videos). Follow-up (Live Model)</p>	<p style="text-align: center;">MASTERCLASS G. RIGOTTI Congenital Deformities+ Second procedures</p> <p>From the first consultation to the final results. Surgical procedures: how to harvest, process and injecting the fat. Planning. Pre OP. Drawings. Surgical details (videos). Follow-up</p>	<p style="text-align: center;">MASTERCLASS D. HAMMOND Breast reduction</p> <p>From the first consultation to the final results. Surgical procedures, patients selection. Pre Op. Drawings. Surgical details (videos). Follow-up (Live Model)</p>	<p style="text-align: center;">MASTERCLASS J. M DEL YERRO Breast reduction</p> <p>From the first consultation to the final results. Surgical procedures, patients selection. Pre Op. Drawings. Surgical details (videos). Follow-up (Live Model)</p>	<p style="text-align: center;">MASTERCLASS G. BOTTI Breast augmentation</p> <p>From the first consultation to the final results. Patients and Implant selection. Measurements. Surgical procedures (videos). Minimize contamination. Post op. Follow-up (Live Model)</p>	
	16.30 - 18.00	COMPANIES MEET ATTENDEES						
	16.30 - 17.30	10' each Companies to summarize their devices features and future research						
	17.30 - 18.00	Questions and Remarks by the experts						
	18.00 - 18.30				MASTERCLASS YOUNG GUNS SESSION	MASTERCLASS Evidence based medicine in Aesthetic Surgery	MASTERCLASS Round Block: indication, patient selection and surgical procedures	
	18.30	COCKTAIL (MEET THE EXPERTS)						

THURSDAY 13th	ROOM	PLENARY ROOM			GREEN ROOM A	GREEN ROOM B	GREEN ROOM C	Pre -Conference
	8.00-13.30	<p style="text-align: center;">LIVE SURGERY</p> <p style="text-align: center;">Surgeons: M.B. Nava - A. Rancati - G. Botti - A. Spano - G. Tunesi - V. Visintini</p> <p>Directly from the Madonna Clinic, two operating rooms, a series of different surgical procedures will be showed and discussed in an interactive way with the attendees.</p>						
	13.30 - 14.30	LUNCH & CONFERENCE REGISTRATION						

MBN 2018 - AESTHETIC BREAST MEETING

(13th - 15th Dec, 2018)

THURSDAY 13th	ROOM	PLENARY ROOM	GREEN ROOM A	GREEN ROOM B	GREEN ROOM C	MBN Meeting	
	14.20	OPENING (M.B. NAVA)					
	14.30 - 16.00	MASTOPEXY					
	14.30 - 14.45	Pexy With or Without Scars					
	14.45 - 15.00	Soft Tissue Mastopexy					
	15.00 - 15.15	Mastopexy after massive weight loss					
	15.15 - 15.30	The upper pole fullness: how to keep it?					
	15.30 - 15.45	How to reshape the breast after implant removal					
	15.45 - 16.00	Q&A DISCUSSION					
	16.00 - 17.30	BREAST REDUCTION					
	16.00 - 16.15	T inverted scar old fashion or still a gold standard?					
	16.15 - 16.30	Meshes to reduce ptosis and bottoming out?					
	16.30 - 16.45	How to choose the best pedicle according to size and shape of the breast					
	16.45 - 17.00	TBD					
	17.00 - 17.15	TBD					
	17.15 - 17.30	Q&A - DISCUSSION					
	17.30 - 18.00	COFFEE BREAK					
	18.00 - 18.30	The Art of Consultation in Aesthetic Breast Surgery					
	18.30 - 19.00		MASTERCLASS SPAIR Technique: patients selection and surgical tricks	MASTERCLASS Mastopexy with auto-prothesis	MASTERCLASS Vertical Scar for Breast Reduction and Pexy		
	20.30	FACULTY DINNER					

ROOM	PLENARY ROOM	GREEN ROOM A	GREEN ROOM B	GREEN ROOM C
8.00 - 8.30	Personal experience with 3D devices to better inform patients and to increase the conversion rate	MASTERCLASS Patient consultation and simplified implant selection	MASTERCLASS Axillary breast augmentation	MASTERCLASS A successful practice
8.30 - 9.00	BREAKFAST WITH THE COMPANY			
9.00 - 9.30	The Ideal Breast			
9.30 - 11.00	PLANNING AND MEASUREMENTS			
9.30 - 9.45	How to measure and to choose the right implant and new IMF position by using anatomical implants			
9.45 - 10.00	How to measure and to choose the right implant and new IMF position by using round implants			
10.00 - 10.15	How to simplify implant selection according patients wishes and anatomical features: an easy ALGORITHM			
10.15 - 10.30	3D devices: a market offer or a real device to allow better planning?			
10.30 - 10.45	Simultaneous mastopexy augmentation by periareolar approach			
10.45 - 11.00	Q&A - DISCUSSION			
11.00 - 11.25	TUBEROUS BREAST: fat grafting - implants or a combination of? My 40 years experience			
11.25 - 11.45	ABSTRACTS DISCUSSION			
11.45 - 13.00	MYTHS vs REALITY			
11.45 - 12.00	Implants rupture: who or what does really impact on this problem?			
12.00 - 12.15	Can a round implant becomes anatomical? If yes: how I can determine the distribution in the inferior pole? Staff skin?			
12.15 - 12.30	Capsule Contracture - ALCL - Chronic Inflammatory Reaction: Does Minimize Implants Contamination Play any Role? What does we know from the literature			
12.3 - 12.45	Which is the real difference among Macro - Micro - Nano Texture and Smooth surfaces?			
12.45 - 13.00	Q&A - DISCUSSION			
13.00 - 14.00	LUNCH			

FRIDAY 14th

MBN Meeting

14.00 - 15.15	SURGICAL APPROACHES			
14.00 - 14.15	Skin incisions can really affect complications? Malposition, waterfall deformities, bottoming out, capsule contracture			
14.15 - 14.30	How to decrease breast shape deformity during muscle contraction			
14.30 - 14.45	Breast Asymmetry: how to correct according to the gravity of it? Implants alone or an association of implant and mastopexy-reduction?			
14.45 - 15.00	Skinny patients: which kind of implant or adjuvant procedures?			
15.00 - 15.15	Q&A - DISCUSSION			
15.15 - 15.30	ABSTRACTS DISCUSSION			
15.30 - 18.00	COMPLICATIONS AND REVISION SURGER			
15.30 - 15.45	Management of Complications with Nanotextured Implants			
15.45 - 16.00	Polyurethane coated implants: when and how			
16.00 - 16.15	How to move inside shaped implant in revision surgery			
16.15 - 16.30	Revision Surgery and Common Complications After Breast Augmentation: how to prevent and treat			
16.30 - 16.45	Matrices or meshes only for revision surgery?			
16.45 - 17.00	Q&A - DISCUSSION			
17.00 - 17.30	COFFEE BREAK			
17.30 - 18.00	Diagnosis and Surgical management of ALCL patients			
18.00 - 18.30		MASTERCLASS How to prevent and how to solve complications in breast aesthetic surgery	MASTERCLASS My way of implants selection, round vs anatomical, according to patients wishes	MASTERCLASS How to use 3D devices to improve your practice in breast surgery
20.30	SOCIAL DINNER			

SATURDAY 15th	ROOM	PLENARY ROOM	GREEN ROOM A	GREEN ROOM B	GREEN ROOM C	MBN Meeting		
	8.00 - 8.30		MASTERCLASS Composite breast Augmentation	MASTERCLAS My journey trough fat grafting: what i have changed during it	MASTERCLASS Reached fat grafting: can make the difference?			
	8.30 - 9.00	BREAKFAST WITH THE COMPANY						
	9.00 - 13.00	CONSENSUN CONFERENCE Fat Cells Transplantation: Safety-Breast Detection-Intake-Long lasting Results						
	9.00 - 09.20	Fat grafting and implants: Pros and cons						
	9.20 - 9.30	Harvesting: which is the best procedure						
	9.30 - 9.40	Injecting: how to do it in order to have great intake						
	9.40 - 9.50	Processing: centrifugation, decantation or new devices						
	9.50 - 10.00	How to measure the intake						
	10.00 - 10.10	Only one procedure?						
	10.10 - 10.20	Radiotreated tissue: rate of non responder						
	10.20 - 10.40	Breast detection: can be affected by the fat grafting						
	10.40 - 10.55	Q&A - DISCUSSION						
	10.55 - 11.15	COFFEE BREAK						
11.15 - 13.30	CONSENSUS STATEMENTS							
13.30 - 14.00	CLOSING & REMARKS							
14.00	FAREWELL CEREMONY
