Dear Colleague,

my Department and the “Scuola di Oncologia Chirurgica Ricostruttiva” are organizing a conference dedicated to the Aesthetic Surgery of the Breast, and patients future health regarding the oncological point of view.

The goal of the conference is to gather International and European experts in breast aesthetic surgery for three days to give the participants the opportunity to learn the state of the art and new techniques through multi-medial presentations. Aspects regarding safety, choice of implants, breast imaging for breast cancer detection and techniques will be covered in full.

Workshops and video sessions on special areas are also planned.

Further information can be found on our web-site:

The School of Oncological Reconstructive Surgery was founded with the scope of increasing knowledge in the area of reconstructive oncology. Founded in June, 1999 by **Dr. Maurizio Nava**, director of the Plastic and Reconstructive Surgery Unit of the National Cancer Institute of Milan.

The goals of the School are:

- To contribute in increasing information available in the area of oncological reconstructive surgery.
- To organize and promote Courses, Seminars and Congresses on this area of speciality.
- To develop research in oncological reconstructive surgery and produce journals and multi-media material.
